

DUPONT™ CORIAN® DESIGN STUDIO HOSTS NEXT GENERATION PATIENT ROOM

Patient Room 2020

On July 15, a prototype of NXT Health Patient Room 2020 opened to the public at the DuPont™ Corian® Design Studio in New York City. Patient Room 2020 is an innovative living laboratory that responds to needs of doctors, nurses, patients and their families by creating safer, more streamlined, integrated and restorative environment.

DuPont™ Corian® solid surface was selected as the predominant material used throughout the project because it is nonporous and when properly cleaned, does not support the growth of mold, mildew and bacteria. In addition to DuPont, more than 35 product and service partners contributed to the creation of Patient Room 2020, ranging from lighting design experts and specialty glass manufacturers to custom fabricators. DuPont™ Corian® Design Studio partners Evans & Paul and Dolan & Traynor are also participating project sponsors.

The 400 square foot prototype leverages a broad collection of technologies that addresses five key aspects of design: the Patient Ribbon, Patient Companion, Open Bathroom, Caregiver Workstation and Caregiver Hub. The room integrates versatile and modular elements, such as the Patient Ribbon—which allows easy access to electrical, technology, and gas components—and the Patient Media Center, which helps facilitate collaboration between caregivers, patients, and visitors. It also provides connectivity to entertainment, information, and hospital services.

“We’re incredibly supportive of NXT Health and their vision of creating solutions through collaborative design,” said Susan Homan, Commercial Marketing Manager, DuPont Surfaces. “The DuPont™ Corian® Design Studio is an ideal home—and incubator—to further test the full-scale prototype and engage with architects, designers, and healthcare professionals.”

Patient Room 2020 has garnered over 30 media placements within the first 6 weeks after opening, including Metropolis.com, Wired.com, Healthcare Design Magazine’s blog, and Fortune.com. As a result, NXT Health has received inquiries from healthcare system administrators at Memorial Sloan Kettering Cancer Center, Johns Hopkins, Cancer Treatment Centers of America, and New York Presbyterian for private tours of the room.

DUPONT™ CORIAN® SOLID SURFACE ADVANTAGE

Flexible and Versatile. DuPont™ Corian® solid surface can be molded and textured to conform to your imagination.

Nonporous and Stain Resistant. Spills do not permeate the surface, and with proper cleaning, DuPont™ Corian® solid surface does not promote the growth of mold, mildew or bacteria.

Durable. Stands up to heavy use. Meets ISO 19712-1 requirements for lightfastness.

Restorable. Marks and scratches can be removed easily.

Meets Standards. DuPont™ Corian® solid surface meets NSF/ANSI Standard 51 Certified for food contact and carries the highest “Interior Finishes” fire rating, Class I (Class A).

Easy to Keep Clean. DuPont™ Corian® countertops, sinks and backsplashes are designed for seamless integration with no crevices to trap dirt.

Warm and Inviting. Select from over 100 colors that appeal to your personal style.

Trusted and Supported. DuPont™ Corian® solid surface is backed by a 10-year Limited Product Warranty.

Contributes to Sustainable Design. DuPont is committed to the environment and sustainability. DuPont™ Corian® and its adhesives and sealants are low VOC, nontoxic and nonallergenic to humans. DuPont™ Corian® solid surface is also GREENGUARD Indoor Air Quality Certified®. To learn more about how DuPont Building Innovations achieved zero landfill status, please visit: aimforzero.dupont.com
